

ACUTE MEDICAL PROBLEMS IN PREGNANCY FOR PHYSICIANS

Two thirds of all maternal deaths are the result of indirect causes such as heart disease and neurological conditions; there has been no significant decrease in the number of indirect maternal deaths over the last ten years.

Why attend?

Develop enhanced familiarity with medical problems in pregnancy

Learn to identify indicators of significant pathology in pregnancy

Promote multidisciplinary communication in both acute and non-acute settings

Ensure that clinical assessment of pregnant women with medical complications is not compromised by the pregnancy

Who should attend?

Physicians consultants and trainees of all grades

General practitioners

Venue:

Royal College of Physicians and Surgeons of Glasgow

Date:

Thursday 8 November 2018
