

Lecturers

Prof. Michael Riccabona

Department of Radiology
Division of Paediatric Radiology
University Hospital LKH, Graz, Austria

Dr. Eoghan Laffan

Department of Radiology, Children's University
Hospital Dublin, Ireland

Prof. Alan Daneman

Department of Diagnostic Imaging
Hospital for Sick Children
University of Toronto, Canada

Prof. George A. Taylor

Department of Radiology
Children's Hospital, Boston, USA

Learning objectives of the Course

Ultrasound imaging of the urogenital tract in neonates and infants

- To become familiar with the different pathologic images of neonatal urogenital tract and with renal haemodynamics
- In the practical session, imaging tests will be made to help participants understand many practical issues of diagnosis and the importance of ultrasound follow-up

Ultrasound imaging of neonatal chest

- To understand the technique of the exam which needs high Skill

Ultrasound imaging of neonatal abdomen

- To understand limits and usefulness of gastrointestinal tract, liver, spleen and pancreas ultrasound imaging
- In the practical session, imaging tests will be made to help participants understand many practical issues of diagnosis

Ultrasound imaging of neonatal brain

- To become familiar with the different pathologic images of neonatal brain: morphology and haemodynamics
- In the practical session, imaging tests will be made to help participants understand many practical issues of diagnosis and the importance of ultrasound follow-up

Information

The theoretical-practical Course is for paediatricians, neonatologists and paediatric radiologists and it is limited to 42 participants. Practical sessions include phantom US exam, tests for the participants and case discussions. The language of the Course is English.

UEMS/EACCME Accreditation:

An application has been made to the EACCME® for CME accreditation of this event.

CME Continuing Medical Education (for Italian Participants only)

CME credits, requested to Ministry of Health, will be given to the participants of the Course.

Registration fee

	by 25 January 2019	by 8 March 2019
Registration fee (VAT included)	€ 900,00	€ 1.055,00

No on site registration.

The fee includes course materials, a CD with the lessons, coffee break and lunch each day.

Accommodation

AIM negotiated preferential rates with Residence Palazzo Ricasoli Hotel.

Double room double use € 150,00 per room per night, taxes and breakfast included.

Double room single use € 120,00 per room per night, taxes and breakfast included.

Please be informed that a City Tax ("Tassa di soggiorno") has been applied for all Florentine hotels (but also for camping, guest houses, rooms for rent, residences, farm holidays with different taxation). Hotel Palazzo Ricasoli requires a fee of 4,8 Euros per person, per night, to be paid at the check out directly to the hotel.

Information

Make sure to proceed with your reservation by **25 January 2019** after this date rooms could not be guaranteed. A receipt will be sent as confirmation of your reservation.

Application

In order to submit your registration and/or hotel reservation, please visit the website

web.aimgroupinternational.com/2019/ultrasound

Cancellation

Cancellation must be sent in writing. You will receive a 75% refund of the participation fee in case of cancellation before **15 February 2019**. After this date no refunds will be possible.

Course venue

Palazzo Ricasoli Polihotels

Via delle Mantellate, 2 - Florence, Italy

2019 Neonatal Ultrasound Course. Why, how and when an ultrasound image?

Florence, 19-22 March 2019
Palazzo Ricasoli Polihotels

PROGRAMME

DIRECTOR

Dr. Antonio La Torre

*Neonatology Department,
AOU Careggi Hospital, Florence*

Tuesday, 19 March

08.45-9.15 **Dr. Antonio La Torre**
Introduction to the Course
Neonatal ultrasonography:
training and safety

Prof. Michael Riccabona

Ultrasound imaging of the urogenital tract in neonates and infants

9.15- 9.45 Basics of US in neonates and infants – revisiting important physics, applications, tips and tricks

9.45-10.15 Doppler US and modern US methods – as far as important and useful for diagnostic US in neonates and infants

10.15-11.00 Urogenital tract US - normal US findings in neonates and infants

11.00-11.15 COFFEE BREAK

11.15-13.00 Urogenital tract US – congenital malformations and conditions in neonates and infants

13.00-14.30 LUNCH

14.30-15.00 Urogenital tract US in neonates and infants – genetic and hereditary conditions

15.00-16.00 Urogenital tract US – acquired disease in neonates and infants

16.00-16.30 Urogenital tract US in infancy: what to do with neonatally diagnosed conditions for follow-up? Imaging algorithms and beyond ...

16.30-17.30 Urogenital tract US in neonates and infants – interactive case discussion

17.30-18.45 Practical Session
The paediatric abdomen US exam by training abdomen phantom

Wednesday, 20 March

Dr. Eoghan Laffan

Ultrasound imaging of neonatal chest

8.30-9.15 Neonatal Chest Ultrasound

9.15-10.00 Neonatal Lung Ultrasound

10.00-10.45 Neonatal Spine Ultrasound

10.45-11.00 COFFEE BREAK

11.00-11.30 Small Parts Ultrasound

11.30-12.30 Practical notes of the technique by teacher's exam of a baby

12.30-13.00 Case studies, multiple choice quiz with audience participation

13.00-14.30 LUNCH

Prof. Alan Daneman

Ultrasound imaging of neonatal abdomen (first part)

14.30-16.00 Neonatal abdomen and pelvis: optimizing US technique, artefacts, review of normal anatomy, catheter positions and catheter evaluations

16.00-17.00 Neonatal adrenal, pancreas, liver, biliary tract and spleen: US appearances of pathological findings

17.00-17.30 Interesting cases and tests for the participants

17.30-19.00 Practical Session
The paediatric abdomen US exam by training abdomen phantom

Thursday, 21 March

Prof. Alan Daneman

Ultrasound imaging of neonatal abdomen (second part)

8.30-9.30 The role of sonography in evaluation of the GI tract in neonates

9.30-10.30 The role of sonography in evaluation of neonates with NEC and the splanchnic circulation.

10.30-11.00 Neonatal abdominal and pelvic masses: differential diagnosis, the role of US relative to other modalities and "disappearing masses" (first part)

11.00-11.15 COFFEE BREAK

11.15-12.00 Neonatal abdominal and pelvic masses: differential diagnosis, the role of US relative to other modalities and "disappearing masses" (second part)

12.00-13.00 Interesting cases and tests for the participants

13.00-14.15 LUNCH

Prof. George A. Taylor

Ultrasound imaging of neonatal brain (first part)

14.15-14.45 Basic Scanning Technique

14.45-14.50 *Unknown case, questions and answers*

14.50-15.20 Normal Development and variants

15.20-15.25 *Unknown case, questions and answers*

15.25-15.55 Advanced scanning approaches and technique

15.55-16.00 *Questions and answers*

16.00-16.45 Introduction to Doppler Cerebral Hemodynamics

16.45-16.50 *Questions and answers*

16.50-17.30 Instructive cases and discussion

Friday, 22 March

Prof. George A. Taylor

Ultrasound imaging of neonatal brain (second part)

9.00-10.00 Brain Injury in the Premature

10.00-10.05 *Unknown case, questions and answers*

10.05-10.40 Anatomic and Hemodynamic Evaluation of Hydrocephalus

10.40-10.45 *Unknown case, questions and answers*

10.45-11.00 COFFEE BREAK

11.00-11.55 Brain Injury in Term and Near Term Infants

11.55-12.00 *Questions and answers*

12.00-13.00 Instructive cases and discussion

13.00-14.30 LUNCH

14.30-15.15 Posterior Fossa: Normal and Pathologic Findings

15.15-15.20 *Unknown case, questions and answers*

15.20-16.00 Intracranial Infections

16.00-16.10 *Unknown case, questions and answers*

16.10-16.30 Cerebral Doppler in Clinical Practice

16.30-17.30 Neonatal Imaging in Rwanda: Challenges and Clinical cases

Case studies and discussion

CME Test
